

Each gift aids in fight for way of life

In the fight to protect the letter carrier way of life, the NALC relies heavily on the regular support that comes from members' automatic contributions to the Committee on Letter Carrier Political Education. But it's just as true that every single contribution to COLCPE counts, regardless of how the donation is made.

Thousands of active and retired members who haven't yet signed up for one of the electronic contribution methods still understand the importance of giving to the political action fund that has backed the letter carrier cause for more than 30 years.

These members, listed on the pages that follow, contributed to COLCPE in 2007 in a variety of ways. Some handed their occasional donations to branch COLCPE coordinators at monthly meetings. Others mailed in checks at various times throughout the year.

Added together, all these valuable contributions help the NALC support lawmakers, regardless of political party, who support letter carriers.

This section of the annual COLCPE issue of *The Postal Record* lists the active and retired members who gave at least once in 2007. Their contribution totals are recorded next to their names.

As in the previous section, states are listed alphabetically. Within each state, branches are noted numerically, and then branch members are listed alphabetically by last name within each branch.

Deborah L.L. White (non-member) in honor of three daughters	\$300

* This list includes donors whose contributions were recorded without enough information to establish their identity fully. An example would be a money order accompanied by a name but no hometown or branch number. Another could be the use of a nickname not recorded in NALC's computer database, or a name that is shared by more than one member. Some may be Auxiliary members who did not identify themselves as such, or other supporters who failed to make their status clear.
