

Inspired or grateful, occasional donors are always welcome

For more than a quarter-century after the Committee on Letter Carrier Political Education was established, a slow flow of occasional contributions to the NALC's political action fund was the norm, boosted periodically by an enthusiastic member response to special appeals from Headquarters.

Not long after he took office, NALC President Bill Young noted the alarming rate at which corporate political action committees and other special interests were grabbing power and gaining prominence in Washington. So, to help stabilize and strengthen our own letter carrier PAC, in 2003 Young established the option of regular, automatic payroll and annuity allotments to COLCPE, and later launched the successful "Gimme 5 for COLCPE" campaign.

While a steady, dependable flow of resources is the best way to support the NALC's legislative and political program, the union remains grateful to the legions of active and retired letter carriers who give to COLCPE simply when they can or when they are inspired to do so. Some of these occasional contributors will drop off a check with their branch COLCPE coordinator after a meeting or a political event. Others might be moved to mail in a portion of a recent union-negotiated pay raise or COLA.

Regardless of how it comes in, every dollar given to COLCPE is warmly welcomed as we continue our campaign to advance the carrier agenda on Capitol Hill, to support our Republican and Democratic friends, and to extend our quest for new legislative allies.

Listed on the following pages are the names and total contributions of each of the occasional contributors who gave to COLCPE in 2008. The list format follows the pattern set in the Automatic Contributors section: States are listed alphabetically; within each state, branches are noted numerically; then, branch members are listed alphabetically by last name within each branch.

Cecil Dixon \$120

* This list includes donors whose contributions were recorded without enough information to establish their identity fully. An example would be a money order accompanied by a name but no hometown or branch number. Another could be the use of a nickname not recorded in NALC's computer database, or a name that is shared by more than one member. Some may be Auxiliary members who did not identify themselves as such, or other supporters who failed to make their status clear.
